

**Requirements to Qualify/Proposal**

The requirements listed below are the minimum levels expected from the professional indicated.

For Authority Engineer

**QUALIFICATION**

The Authority Engineer shall be either a member of or employed by a firm of New Jersey licensed engineers and shall have all applicable licenses to perform general engineering in NJ. The firm must be multi-disciplined with at least eight (8) years experience in all aspects of utilities and municipal engineering including but not limited to expertise in road construction, construction management water & sewer plant construction with engineers who held licenses in these areas, land use law experience, planners & landscape engineers on staff, experience in environmental studies assessments (wetlands, archaeological, endangered species, hydrologic studies, storm water management), GIS, materials testing, surveying, drainage, and extensive knowledge of NJDEP rules and regulations. The individual appointed or assigned by a firm shall have been licensed as an engineer for a minimum of five (5) years and have five (5) years prior experience representing authorities or municipalities. The appointed engineer may, in his/her discretion, be assisted by employees of his/her firm with a lesser level of experience.

Please explain how you or your firm meets the minimum requirements. (Attach additional sheets, if necessary.)
